

MICAH DUNHAM

EMPLOYEE OF THE YEAR 2014

Micah started working for Willow Run in July of 2011 as a dry picker. Before long, we realized Micah's potential. As a dry picker, Micah was not only fast but he was extremely accurate. Soon after we hired Micah on as a permanent employee, there was an opening in the cooler. Micah's speed and accuracy made him a perfect choice. Soon after joining the cooler team, Micah became one of the best. He continues to be ranked among the top of not only the cooler, he is ranked high amongst all of the pickers.

Over the summer we have had times that we needed some help in other departments. Micah was always willing to lend a hand and at times he even asked if he could help because he noticed that another department was falling behind.

Since the beginning of September the cooler has been faced with a new challenge. We have started using wrist scanners while picking and Micah along with the help of a couple other cooler pickers have closely assisted the IS department in implementing the new system and making it usable.

Micah is an extremely reliable employee. He has a perfect attendance record and is always here early and eager to start his shift. When you take into consideration that he is reliable, the quality of work that he produces and join them with his positive attitude, it is easy for the night management to call him a MVP.

We would like to thank Micah for all of his hard work and dedication to Willow Run Foods. It is a pleasure to work with him and he sets a great example for everyone to follow.
